Yes  No

3. Will you support dedicated, paid training each year for education support professionals to get the training they need that is specific to their work and students' needs?

Yes  No

## Taxes/revenue

## Higher education

---

6. Do you support increasing the state's direct investment in public higher education to significantly reduce institutions' reliance on tuition?

Yes  No

7. Will you support investments in capital bonding projects that preserve buildings, remodel classrooms and keep our technology assets current?

Yes  No

8. What would you do, as a state legislator, to help with education debt?

Yes  No

## High-quality professional educators

---

10. What will you do to help recruit and retain high-quality educators in our classrooms?

## Honesty in Education

---

15. What can you do to protect teachers in the classroom and ensure that they have the freedom to teach?

**Not requiring them to publish their entire curriculum ahead of time, which is both burdensome and not realistic as teaching requires flexibility.**

**Yes, students deserve both an accurate education and one that reflects their diverse experiences.**

## **Time to Teach**

Yes    No

## Your role as a legislator

---

33. Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?

**I have attended several community events, school board meetings, and met with teachers in the Orono School District, where I used to work as an instructional technology specialist. I have also talked with teachers in the Osseo school district. My observations are that teachers are more overworked and under supported than ever before. Teachers are leaving the profession not because they don't love teaching, but because they don't have the resources they need and are constantly under fire by undue public criticism.**

34. What have you done to become informed on issues relating to public education? What organizations and individuals do you go to for your information?

**I frequently go to my family, friends, and colleagues who work in public education to learn their first-hand experiences and professional opinions. As a legislator I would continue to reach out to educators in my district and work with Education Minnesota.**

35. How do you envision working with Education Minnesota if you are elected/re-elected? If you disagree with us on an issue, how will you communicate that?

**I will prioritize Education Minnesota in my research on education issues and if we disagree on issues my opinion will be based on information from teachers I know and trust, and I will share what they have shared with me.**

36. If elected/re-elected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?

**I will make decisions the best I can based on empirical data and input from educators in my district.**
