Yes No

Yes No

Taxes/revenue

4. Would you commit to raising revenue to ensure the wealthiest corporations and richest households pay what they truly owe in taxes so every student, no matter what they look like or where they live, can attend a fully funded public school that prepares them to pursue their dreams?

Yes No

5. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. Considering your own experience and expertise, are there other progressive, equitable ways to raise state revenue that you would recommend the union consider supporting?

Not at this time.

Yes No

Standardized testing

14. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

I strongly believe the MCA's should be eliminated. We need to find a ways to measure student achievement so that each child makes a year's progress every year.

Honesty in Education

15. What can you do to protect teachers in the classroom and ensure that they have the freedom to teach?

I will not support bans on teaching factual history. Society can learn from it's mistakes.

16. Do you agree that Minnesotan students deserve an honest and accurate education about race that enables them to learn from the mistakes of our past so they can create a better future for all Minnesotans? Why or why not?

Absolutely. We must learn to understand the unfair treatment of groups of people based on their race and that it was not fair. We need to teach children to respect one another.

Time to Teach

Yes No

Yes No

Union Rights

20. Do you support collective bargaining rights?

Yes No

22. Do you support teacher tenure and due process rights so the experts who work the most with students have the support to stand up for them?

Yes No

23. How will you support unions as a state legislator?

I support all unions. I was a teacher and worked for a district that did not settle their contract for 8 years. It took an act of legislature to known as the Sunset Law to force a settlement. This law was recently repealed. I will support a similar law.

Yes No

31. Will you support a moratorium on new charter schools until such changes are made?

Yes No

32. Minnesota students, from different places and of different races, deserve well-resourced, welcoming schools. These needs are urgent and can't wait decades for lawyers and courts to force it to happen.

Do you oppose efforts that would delete constitutional mandates for using taxation to fund public education funding and for providing equal access to public schools to all students?

Yes No

Do you also oppose these same efforts that would enshrine standardized testing – with all its racial, cultural and economic biases – into the Minnesota Constitution?

Yes No

Your role as a legislator

33. Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?

I am on the School Board and aware of all the issues in the district. I was a special education teacher for 21 years and an elementary principal for 18 years.

34. What have you done to become informed on issues relating to public education? What organizations and individuals do you go to for your information?

I attend the Association of Metropolitan School Districts meetings as part of my School Board duties. I rely on AMSD for information regarding current education issues and the legislature's progress.

35. How do you envision working with Education Minnesota if you are elected/re-elected? If you disagree with us on an issue, how will you communicate that?

If I disagree, I will explain why and listen respectfully with an open mind to arguments.

36. If elected/re-elected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?

Currently, I'm unaware of other education groups. But I believe that Education MN has the largest number of members and therefore would deserve priority.
