Steve Elkins HD 50B

Education Minnesota candidate questionnaire

Education funding

1. Education Minnesota believes the solution to closing the state's racial opportunity gaps must include fully and equitably funding public education, from preschool to postsecondary institutions. There's widespread agreement the full-funding agenda will require several billion dollars in new education investments. Please indicate your support or opposition to the following components of our full-funding agenda. Inflation: Reverse Minnesota's perpetual underfunding of education by significantly increasing the perpupil funding formula and tying it to inflation. ⊠ Yes \square No SPED cross subsidy: The state must also fully fund its portion of special education costs instead of relying on school districts to pay for them. ⊠ Yes \square No EL cross subsidy: Fully fund the costs districts pay to provide quality English learner programs and instruction. ⊠ Yes \square No Lower class sizes: Lower class sizes so teachers can give students more of the individual attention they need and deserve. ⊠ Yes \square No Full-service community schools: Expand access to full-service community schools across the state. ⊠ Yes ☐ No Universal pre-K: Provide universal pre-K taught by licensed teachers, so all children are ready for kindergarten. ⊠ Yes □ No

Teachers of color: Fund programs to increase the number of teachers of color significantly so teachers providing instruction better reflect the students in our classrooms.
⊠ Yes □ No
Student support: Provide additional resources for school districts to hire more student support staff, including counselors, social workers, psychologists, nurses and other job classifications.
⊠ Yes □ No
TDE/Q Comp: Fully fund the 2011 Teacher Development and Evaluation law, an unfunded state mandate, to ensure teacher quality and lift the cap on the Q Comp program.
⊠ Yes □ No
Professional development: Provide professional development to all staff around cultural competency and trauma-responsive classrooms with aims of closing the discipline disparity gap.
⊠ Yes □ No
ESP living wage: Ensure all education support professionals earn a living wage of at least \$25 an hour.
⊠ Yes □ No
Teacher compensation and benefits: Increase teacher compensation to provide competitive salaries and benefits to recruit and retain teachers.
⊠ Yes □ No
Health care for all school employees: Make health insurance more affordable, fair and predictable for educators and school employees so they stay in the profession.
⊠ Yes □ No
Education debt relief: Provide debt relief to retain teachers so they can afford to stay in the classroom.
⊠ Yes □ No
Higher education: Renew Minnesota's commitment to invest in the state's future by fully funding public higher education in Minnesota.
⊠ Yes □ No
Education Support Professionals
2. Do you support ESPs being able to access unemployment insurance in the summers, when they are not guaranteed work?
⊠ Yes □ No

3. Will you support dedicated, paid training each year for education support professionals to get the training they need that is specific to their work and students' needs?
⊠ Yes □ No
Taxes/revenue
4. Would you commit to raising revenue to ensure the wealthiest corporations and richest households pay what they truly owe in taxes so every student, no matter what they look like or where they live, can attend a fully funded public school that prepares them to pursue their dreams? ⊠ Yes □ No
5. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. Considering your own experience and expertise, are there other progressive, equitable ways to raise state revenue that you would recommend the union consider supporting? I believe that reliance on local property tax levies should be minimized and that education should be financed almost entirely through progressive statewide taxes such as the income tax. We currently have a \$2.5 billion per annum structural budget surplus and I believe that we should completely and permanently fund the elimination of the special education cross subsidy from this surplus before resorting to increased taxes of any kind.
Higher education
6. Do you support increasing the state's direct investment in public higher education to significantly reduce institutions' reliance on tuition?
⊠ Yes □ No
7. Will you support investments in capital bonding projects that preserve buildings, remodel classrooms and keep our technology assets current?
⊠ Yes □ No
8. What would you do, as a state legislator, to help with education debt?
I would support granting income tax credits to help offset student loan payments. I also believe that we should provide enough funding to freeze, or even reduce, tuition costs at the University of Minnesota and MNSCU.
9. Some college campuses have no counselors, while others have a ratio of 1:11,000 students. Will you support each Minnesota State campus having at least one counselor so students have access to mental health and academic support services?
⊠ Yes □ No

High-quality professional educators

10. What will you do to help recruit and retain high-quality educators in our classrooms?

We need to index the basic K-12 funding formula to inflation so that inflationary pay increases for teachers are part of our baseline K-12 budget rather than something that we must negotiate in each biennial budget. Pay increases for teachers should more than offset inflation to keep pace with the

wages being paid to other similarly educated professionals.
11. Do you support changes to current law to include our fully-licensed Early Childhood Family Education (ECFE) and Adult Basic Education (ABE) teachers in the continuing contract law?
⊠ Yes □ No
Teacher licensure
12. Do you support changes to state law to allow Tier 1 teachers to join the teacher bargaining unit?
⊠ Yes □ No
13. Do you support deleting the option in Tier 3 that allows a person to receive a full professional license without completing a teacher preparation program?
⊠ Yes □ No
Standardized testing

14. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

I believe that standardized test should be used to identify any shortcomings in a student's mastery of the basic educational attainment goals for his or her age group which need to be remediated. Especially in the STEM subject areas, mastery of the foundational concepts is essential to the student's future success. Advancing a student to the next level before they have mastered the foundational information only sets up that student for failure.

Honesty in Education

15. What can you do to protect teachers in the classroom and ensure that they have the freedom to teach?

The legislature needs to guard against the injection of ideological subject matter that is not based on facts into the classroom curriculum and provide safeguards against the censorship of factual information.

16. Do you agree that Minnesotan students deserve an honest and accurate education about race that enables them to learn from the mistakes of our past so they can create a better future for all Minnesotans? Why or why not?

Absolutely. An informed citizenry must know the truth about the longstanding institutional obstacles faced by people of color so that we can address the vestiges of those policies that still exist, today and remediate the ongoing ill-effects of those policies on those communities, today.

Time to Teach
17. The planning and differentiating that teachers do daily needs more time. Most after school "prep" is filled with meetings. The current statute falls short of the time needed for preparing lessons. Will you support adjusting this statute to increase prep time?
⊠ Yes □ No
18. Will you support legislation that protects an educator's prep time so it can't be used for meetings or having to sub for colleagues?
⊠ Yes □ No
19. Do you support paid, dedicated time outside of student contact time for special education teachers to complete their paperwork and required meetings?
⊠ Yes □ No
Union Rights
20. Do you support collective bargaining rights?
20. Do you support collective bargaining rights?
20. Do you support collective bargaining rights? ☑ Yes ☐ No 21. Will you oppose any legislation or constitutional amendments that would weaken collective bargaining rights, the right to organize, the right to strike, automatic payment of union dues, union access
20. Do you support collective bargaining rights? ☑ Yes ☐ No 21. Will you oppose any legislation or constitutional amendments that would weaken collective bargaining rights, the right to organize, the right to strike, automatic payment of union dues, union access and activities at worksites or other anti-union policies backed by anti-worker groups?
20. Do you support collective bargaining rights? ☑ Yes ☐ No 21. Will you oppose any legislation or constitutional amendments that would weaken collective bargaining rights, the right to organize, the right to strike, automatic payment of union dues, union access and activities at worksites or other anti-union policies backed by anti-worker groups? ☑ Yes ☐ No 22. Do you support teacher tenure and due process rights so the experts who work the most with students

I have always been a strong supporter of collective bargaining rights for workers in both the public and private sectors. I will continue to oppose so-called "right-to-work" legislation. I will continue to advocate for approval of negotiated bargaining agreements with public employees.

Working families

24. Do you support the current language that allows educator locals to unilaterally seek a bid and join the Public Employee Insurance Program (PEIP) as the insurance provider for local bargaining units?
⊠ Yes □ No
25. Will you support continuing defined-benefits retirement systems for public employees?
⊠ Yes □ No
26. Will you support providing the necessary state funding to ensure financial sustainability of public pension funds?
⊠ Yes □ No
27. Will you support exploring new systems for providing educators with a secure retirement, including exploring early retirement options that might help recruit and retain educators?
⊠ Yes □ No
28. What legislation could you introduce or support that would reduce the cost of health insurance to
school districts? Where do you stand on health care for all?
I have been active in developing legislation to expose and address the high cost of drugs and health care services (e.g. HF57/58). I believe that we should fund universal health care insurance through taxation, not employer/employee payroll contributions, but I support having health care insurance options similar to those that I enjoy in the Medicare Advantage health plan marketplace.

Your role as a legislator
⊠ Yes □ No
Do you also oppose these same efforts that would enshrine standardized testing – with all its racial, cultural and economic biases – into the Minnesota Constitution?
⊠ Yes □ No
Do you oppose efforts that would delete constitutional mandates for using taxation to fund public education funding and for providing equal access to public schools to all students?
32. Minnesota students, from different places and of different races, deserve well-resourced, welcoming schools. These needs are urgent and can't wait decades for lawyers and courts to force it to happen.

33. Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?

Not in the past year, due to Covid, but I would like to do so, again, sometime in the coming year.

34. What have you done to become informed on issues relating to public education? What organizations and individuals do you go to for your information?

I meet with the Legislative Action Committees of my School Districts and my School Superintendents on a regular basis. I attend legislative policy conferences of the AMSD. My wife, Judy, is a retired primary school teacher.

35. How do you envision working with Education Minnesota if you are elected/reelected? If you disagree with us on an issue, how will you communicate that?

I meet with Education Minnesota's legislative staff at the Capitol upon request.

36. If elected/reelected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?

When there are conflicts between Education Minnesota and my School Boards/Superintendents, I listen to both sides before coming to a conclusion. (I am not aware of any such conflicts in Bloomington, right now.)
