Taxes/revenue

Yes No

5. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. Considering your own experience and expertise, are there other progressive, equitable ways to raise state revenue that you would recommend the union consider supporting?

Undecided

Yes No

Standardized testing

14. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

Don't feel a one size fits all approach is best, there needs to be a lot of nuances for expectations. I think each school district has its own set of unique challenges that impact standardize test scores. I believe school districts could take the lead to use state provided resources to address poor test scores.

Honesty in Education

15. What can you do to protect teachers in the classroom and ensure that they have the freedom to teach?

Oppose censorship in all forms, this can be legislated.

16. Do you agree that Minnesotan students deserve an honest and accurate education about race that enables them to learn from the mistakes of our past so they can create a better future for all Minnesotans? Why or why not?

Yes. Facts are stubborn because they are true. Students need to know these issues.

Yes No

31. Will you support a moratorium on new charter schools until such changes are made?

Yes No

32. Minnesota students, from different places and of different races, deserve well-resourced, welcoming schools. These needs are urgent and can't wait decades for lawyers and courts to force it to happen.

Do you oppose efforts that would delete constitutional mandates for using taxation to fund public education funding and for providing equal access to public schools to all students?

Yes No

Do you also oppose these same efforts that would enshrine standardized testing – with all its racial, cultural and economic biases – into the Minnesota Constitution?

Yes No

Your role as a legislator

33. Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?

Twin Lakes Elementary, Elk River, last year. I meet with staff and teachers throughout the day in the break room. I spent the most time with a Special Ed teacher. The issues she faces to help her students to succeed is difficult. I would like to help her and her students.

34. What have you done to become informed on issues relating to public education? What organizations and individuals do you go to for your information?

I rely on my next-door neighbor who teaches at Vandenberg Middle School in Elk River to keep updated on school initiatives and issues and I consult with Superintendent Dan Bittman.

35. How do you envision working with Education Minnesota if you are elected/re-elected? If you disagree with us on an issue, how will you communicate that?

I agree with all issues in this survey, the key is getting a majority of 134 members in the MN House to agree too. But, if I did have a disagreement, I would view ED MN as a partner to talk about it.

36. If elected/re-elected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?

My priority is to advocate for my district, that would be the weight in the balance. But there is also a "greater good" that needs to be considered too. I would consider both of these in consultation with my partners at Education Minnesota.
