Honesty in Education

15. What can you do to protect teachers in the classroom and ensure that they have the freedom to teach?

16. Do you agree that Minnesotan students deserve an honest and accurate education about race that enables them to learn from the mistakes of our past so they can create a better future for all Minnesotans? Why or why not?

Yes No

Do you also oppose these same efforts that would enshrine standardized testing – with all its racial, cultural and economic biases – into the Minnesota Constitution?

Yes No

Your role as a legislator

33. Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?

I was at the Bemidji Middle School for DFL caucusing in February. Though the kids were not in the classroom at the time, I saw a warm and caring environment. It was evident from the art on the walls, that the teacher really cared for their students and that the students loved their teacher.

A childhood friend of mine is an educator and is very involved in his union. He is my “expert” for educational policy.

35. How do you envision working with Education Minnesota if you are elected/reelected? If you disagree with us on an issue, how will you communicate that?

36. If elected/reelected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?

No other education groups have reached out to me. I will do my best to find common ground between (sometimes) competing interests.
