Considering your own experience and expertise, are there other progressive, equitable ways to raise state revenue that you would recommend the union consider supporting?

## Standardized testing

---

14. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

Yes    No

23. How will you support unions as a state legislator?

**I will continue to be a strong advocate for unions. I will always strongly support the right to bargain collectively. I will also support measures to increase teacher pay/benefits, strengthen**

*Do you oppose efforts that would delete constitutional mandates for using taxation to fund public education funding and for providing equal access to public schools to all students?*

Yes    No

*Do you also oppose these same efforts that would enshrine standardized testing – with all its racial, cultural and economic biases – into the Minnesota Constitution?*

Yes    No

## Your role as a legislator

---

33. Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?

**Mesabi East. I saw teachers, support staff, and students who were extremely stressed. Teachers and support staff are being asked to do things that stretch them to their utmost capabilities. **I will keep lines of communication open to all educational groups. I will work with them to find common ground on competing issues.**
