

Liz Boldon

Education Minnesota candidate questionnaire

Education funding

1. Education Minnesota believes the solution to closing the state's racial opportunity gaps must include fully and equitably funding public education, from preschool to postsecondary institutions. There's widespread agreement the full-funding agenda will require several billion dollars in new education investments. Please indicate your support or opposition to the following components of our full-funding agenda.

Inflation: Reverse Minnesota's perpetual underfunding of education by significantly increasing the per-pupil funding formula and tying it to inflation.

Yes No

SPED cross subsidy: The state must also fully fund its portion of special education costs instead of relying on school districts to pay for them.

Yes No

EL cross subsidy: Fully fund the costs districts pay to provide quality English learner programs and instruction.

Yes No

Lower class sizes: Lower class sizes so teachers can give students more of the individual attention they need and deserve.

Yes No

Full-service community schools: Expand access to full-service community schools across the state.

Yes No

Universal pre-K: Provide universal pre-K taught by licensed teachers, so all children are ready for kindergarten.

Yes No

Teachers of color: Fund programs to increase the number of teachers of color significantly so teachers providing instruction better reflect the students in our classrooms.

Yes No

Student support: Provide additional resources for school districts to hire more student support staff, including counselors, social workers, psychologists, nurses and other job classifications.

Yes No

TDE/Q Comp: Fully fund the 2011 Teacher Development and Evaluation law, an unfunded state mandate, to ensure teacher quality and lift the cap on the Q Comp program.

Yes No

Professional development: Provide professional development to all staff around cultural competency and trauma-responsive classrooms with aims of closing the discipline disparity gap.

Yes No

ESP living wage: Ensure all education support professionals earn a living wage of at least \$25 an hour.

Yes No

Teacher compensation and benefits: Increase teacher compensation to provide competitive salaries and benefits to recruit and retain teachers.

Yes No

Health care for all school employees: Make health insurance more affordable, fair and predictable for educators and school employees so they stay in the profession.

Yes No

Education debt relief: Provide debt relief to retain teachers so they can afford to stay in the classroom.

Yes No

Higher education: Renew Minnesota's commitment to invest in the state's future by fully funding public higher education in Minnesota.

Yes No

Education Support Professionals

2. Do you support ESPs being able to access unemployment insurance in the summers, when they are not guaranteed work?

Yes No

3. Will you support dedicated, paid training each year for education support professionals to get the training they need that is specific to their work and students' needs?

Yes No

Taxes/revenue

4. Would you commit to raising revenue to ensure the wealthiest corporations and richest households pay what they truly owe in taxes so every student, no matter what they look like or where they live, can attend a fully funded public school that prepares them to pursue their dreams?

Yes No

5. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. Considering your own experience and expertise, are there other progressive, equitable ways to raise state revenue that you would recommend the union consider supporting?

I fully support everyone paying their fair share – which means raising tax levels for the wealthiest Minnesotans and giant corporations. I'd also support things like taxing inherited wealth fairly, closing estate tax loopholes, and instituting a carbon tax. While taxation is not necessarily my area of expertise, I'm committed to ensuring ALL Minnesotans have what they need – as a state we have the resources to do that if everyone pays their fair share.

Higher education

6. Do you support increasing the state's direct investment in public higher education to significantly reduce institutions' reliance on tuition?

Yes No

7. Will you support investments in capital bonding projects that preserve buildings, remodel classrooms and keep our technology assets current?

Yes No

8. What would you do, as a state legislator, to help with education debt?

Education debt is something I hear from many of my constituents, it's a deterrent from many young people to go on to higher education. It also is a stressor and barrier for many young adults who graduate collage with excessive debt – I know this firsthand as I carry tens of thousands of dollars of student loan debt myself. I'm supportive of reimbursement programs, as well as direct investments from the state to decrease or eliminate the cost for learners depending on their need.

9. Some college campuses have no counselors, while others have a ratio of 1:11,000 students. Will you support each Minnesota State campus having at least one counselor so students have access to mental health and academic support services?

Yes No

High-quality professional educators

10. What will you do to help recruit and retain high-quality educators in our classrooms?

We need to ensure educators are fairly compensated for the critically important work they're doing. We should fund programs to reimburse student loan debt. We also need to ensure working conditions are such that they want to stay – this means smaller classroom sizes, adequate prep time, culturally competent co-workers and supervisors, the ability to receive UI during the summer and appropriate resources for students like counselors and nurses, so teachers don't have to take on those roles as well.

11. Do you support changes to current law to include our fully-licensed Early Childhood Family Education (ECFE) and Adult Basic Education (ABE) teachers in the continuing contract law?

Yes No

Teacher licensure

12. Do you support changes to state law to allow Tier 1 teachers to join the teacher bargaining unit?

Yes No

13. Do you support deleting the option in Tier 3 that allows a person to receive a full professional license without completing a teacher preparation program?

Yes No

Standardized testing

14. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

I feel standardized tests should determine very little, if anything, especially at the individual level. There is growing evidence that these tests are racially biased and do not measure what they purport to. I also fear pressure and high expectations are put upon educators such that they feel they are teaching to exams vs. using their expertise and creativity to teach what students really need to learn.

Honesty in Education

15. What can you do to protect teachers in the classroom and ensure that they have the freedom to teach?

I'm fully committed to supporting educators to use their expertise and skill to teach an honest education that will prepare students for the world they're about to enter. I will strongly oppose any laws and all dangerous narratives from extremists who aim to limit an honest education for all.

16. Do you agree that Minnesotan students deserve an honest and accurate education about race that enables them to learn from the mistakes of our past so they can create a better future for all Minnesotans? Why or why not?

Yes, 100%. I've attended and spoke (as a parent and community member) at many Rochester (ISD 535) school board meetings on this very topic.

Time to Teach

17. The planning and differentiating that teachers do daily needs more time. Most after school "prep" is filled with meetings. The current statute falls short of the time needed for preparing lessons. Will you support adjusting this statute to increase prep time?

Yes No

18. Will you support legislation that protects an educator's prep time so it can't be used for meetings or having to sub for colleagues?

Yes No

19. Do you support paid, dedicated time outside of student contact time for special education teachers to complete their paperwork and required meetings?

Yes No

Union Rights

20. Do you support collective bargaining rights?

Yes No

21. Will you oppose any legislation or constitutional amendments that would weaken collective bargaining rights, the right to organize, the right to strike, automatic payment of union dues, union access and activities at worksites or other anti-union policies backed by anti-worker groups?

Yes No

22. Do you support teacher tenure and due process rights so the experts who work the most with students have the support to stand up for them?

Yes No

23. How will you support unions as a state legislator?

I'm a strong supporter of unions. I'll continue to support legislation to strengthen collective bargaining rights and will oppose all legislation that seeks to weaken them. I'll also continue to use my voice and platform to support workers and workers' rights.

Working families

24. Do you support the current language that allows educator locals to unilaterally seek a bid and join the Public Employee Insurance Program (PEIP) as the insurance provider for local bargaining units?

Yes No

25. Will you support continuing defined-benefits retirement systems for public employees?

Yes No

26. Will you support providing the necessary state funding to ensure financial sustainability of public pension funds?

Yes No

27. Will you support exploring new systems for providing educators with a secure retirement, including exploring early retirement options that might help recruit and retain educators?

Yes No

28. What legislation could you introduce or support that would reduce the cost of health insurance to school districts? Where do you stand on health care for all?

I'm a strong supporter of health care for all. As a nurse, this is something I'm very passionate about. I'm one of the founding co-chairs of the Minnesota Health Plan caucus and a co-author of the MHP bill which would ensure universal health care. This is essential and I will do everything in my power to get this done.

Privatization

29. Do you oppose state tax credits for private K-12 education tuition and expenses?

Yes No

30. Will you support policy changes that will ensure a stronger accountability system with necessary oversight and reporting to ensure quality management and instructional practices in charter schools?

Yes No

31. Will you support a moratorium on new charter schools until such changes are made?

Yes No

32. Minnesota students, from different places and of different races, deserve well-resourced, welcoming schools. These needs are urgent and can't wait decades for lawyers and courts to force it to happen.

Do you oppose efforts that would delete constitutional mandates for using taxation to fund public education funding and for providing equal access to public schools to all students?

Yes No

Do you also oppose these same efforts that would enshrine standardized testing – with all its racial, cultural and economic biases – into the Minnesota Constitution?

Yes No

Your role as a legislator

33. Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?

Yes, I visited all the community schools in Rochester which was a wonderful experience. The dedication and skill of the staff was evident and I'll certainly keep these experiences in mind as I continue my work as a legislator. I would absolutely like to spend more time in classrooms next year as well, I believe building relationships with educators and seeing firsthand what they're experiencing is beneficial.

34. What have you done to become informed on issues relating to public education? What organizations and individuals do you go to for your information?

I have a network of educators that I connect with frequently. I regularly attend Rochester Public School Board meetings and I respect and appreciate the information and connection with Education MN.

35. How do you envision working with Education Minnesota if you are elected/re-elected? If you disagree with us on an issue, how will you communicate that?

I look forward to staying connected and working together. I'm happy to carry and co-author bills, be present at events and use my voice and platform to advocate and work for our shared values and goals. If I disagree on an issue, I'll reach out to ask for information and communicate where I stand. I'm always open to learning more on any issue and value our relationship.

36. If elected/re-elected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?

I believe open communication is key and I'm always clear on where I stand on issues. I'm also always open to listen and learn more.
