Education Minnesota candidate questionnaire

Education funding

1. Education Minnesota believes the solution to closing the state's racial opportunity gaps must include fully and equitably funding public education, from preschool to postsecondary institutions. There's widespread agreement the full-funding agenda will require several billion dollars in new education investments. Please indicate your support or opposition to the following components of our full-funding agenda.

Inflation: Reverse Minnesota's perpetual underfunding of education by significantly increasing the per-pupil funding formula and tying it to inflation.

Yes No

SPED cross subsidy: The state must also fully fund its portion of special education costs instead of relying on school districts to pay for them.

Yes No

EL cross subsidy: Fully fund the costs districts pay to provide quality English learner programs and instruction.

Yes No

Lower class sizes: Lower class sizes so teachers can give students more of the individual attention they need and deserve.

Yes No

Full-service community schools: Expand access to full-service community schools across the state.

Yes No

Universal pre-K: Provide universal pre-K taught by licensed teachers, so all children are ready for kindergarten.

Yes No

Teachers of color: Fund programs to increase the number of teachers of color significantly so teachers providing instruction better reflect the students in our classrooms.

Yes No

Student support: Provide additional resources for school districts to hire more student support staff, including counselors, social workers, psychologists, nurses and other job classifications.

Yes No

TDE/Q Comp: Fully fund the 2011 Teacher Development and Evaluation law, an unfunded state mandate, to ensure teacher quality and lift the cap on the Q Comp program.

Yes No

Professional development: Provide professional development to all staff around cultural competency and trauma-responsive classrooms with aims of closing the discipline disparity gap.

Yes No

ESP living wage: Ensure all education support professionals earn a living wage of at least \$25 an hour.

Yes No

Teacher compensation and benefits: Increase teacher compensation to provide competitive salaries and benefits to recruit and retain teachers.

Yes No

Health care for all school employees: Make health insurance more affordable, fair and predictable for educators and school employees so they stay in the profession.

Yes No

Education debt relief: Provide debt relief to retain teachers so they can afford to stay in the classroom.

Yes No

Higher education: Renew Minnesota's commitment to invest in the state's future by fully funding public higher education in Minnesota.

Yes No

Education Support Professionals

2. Do you support ESPs being able to access unemployment insurance in the summers, when they are not guaranteed work?

Yes No

3. Will you support dedicated, paid training each year for education support professionals to get the training they need that is specific to their work and students' needs?

Yes No

Taxes/revenue

4. Would you commit to raising revenue to ensure the wealthiest corporations and richest households pay what they truly owe in taxes so every student, no matter what they look like or where they live, can attend a fully funded public school that prepares them to pursue their dreams?

Yes No

5. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. Considering your own experience and expertise, are there other progressive, equitable ways to raise state revenue that you would recommend the union consider supporting?

Getting rid of tax exemptions on things like stadium suites and gold bullion. I also believe in corporate windfall tax. I would also like to look at creative ways to capture tax revenue on goods and services like Amazon deliveries, Uber, and DoorDash.

Higher education

6. Do you support increasing the state's direct investment in public higher education to significantly reduce institutions' reliance on tuition?

Yes No

7. Will you support investments in capital bonding projects that preserve buildings, remodel classrooms and keep our technology assets current?

Yes No

8. What would you do, as a state legislator, to help with education debt?

I would like to see the state return to covering 2/3 of the tuition and 1/3 being left up to the students instead of the opposite way. I also think that we should make two year Community Schools and vocational schools free.

9. Some college campuses have no counselors, while others have a ratio of 1:11,000 students. Will you support each Minnesota State campus having at least one counselor so students have access to mental health and academic support services?

Yes No

High-quality professional educators

10. What will you do to help recruit and retain high-quality educators in our classrooms?

I will make sure that they get the in classroom support they need as well as try to reduce the administrative burden on teachers especially special education teachers. We need to ensure that teachers are able to do what they love and inspire our kiddos. It makes me sad when I hear how overwhelmed and burned out teachers are today. We cannot expect our teachers to be everything to these kids when they aren't given the tools to do the job.

11. Do you support changes to current law to include our fully-licensed Early Childhood Family Education (ECFE) and Adult Basic Education (ABE) teachers in the continuing contract law?

Yes No

Teacher licensure

12. Do you support changes to state law to allow Tier 1 teachers to join the teacher bargaining unit?

Yes No

13. Do you support deleting the option in Tier 3 that allows a person to receive a full professional license without completing a teacher preparation program?

Yes No

Standardized testing

14. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

I do not serve on the transportation committee so I'm not very familiar with the kinds of decisions made based on standardized test scores. I would like to learn more about this issue. I don't believe testing accurately reflects the needs of the students or what they are learning in the classroom. I do believe that we need to make our decisions based on data and outcomes, I am just not sure standardized testing accurately measures classroom outcomes.

Honesty in Education

15. What can you do to protect teachers in the classroom and ensure that they have the freedom to teach?

I think one thing we can do is expand union protections and make sure that all people working in a school are safe.

16. Do you agree that Minnesotan students deserve an honest and accurate education about race that enables them to learn from the mistakes of our past so they can create a better future for all Minnesotans? Why or why not?

Yes absolutely. I recently found out that one of my ancestors took part in the hanging of the Dakota 38. I was going through my grandma's family history and was really taken aback when I saw that part of my family's past. There's nothing I can do to change the past but I am in a position that I'm able to change the future. I think it's absolutely important to teach our real history and how it affects people's lives today not to make people feel bad about the past but to show them how they can change the future

Time to Teach

17. The planning and differentiating that teachers do daily needs more time. Most after school "prep" is filled with meetings. The current statute falls short of the time needed for preparing lessons. Will you support adjusting this statute to increase prep time?

Yes No

18. Will you support legislation that protects an educator's prep time so it can't be used for meetings or having to sub for colleagues?

Yes No

19. Do you support paid, dedicated time outside of student contact time for special education teachers to complete their paperwork and required meetings?

Yes No

Union Rights

20. Do you support collective bargaining rights?

Yes No

21. Will you oppose any legislation or constitutional amendments that would weaken collective bargaining rights, the right to organize, the right to strike, automatic payment of union dues, union access and activities at worksites or other anti-union policies backed by anti-worker groups?

Yes No

22. Do you support teacher tenure and due process rights so the experts who work the most with students have the support to stand up for them?

Yes No

23. How will you support unions as a state legislator?

I have always been a strong advocate for the unions and the right to collective bargaining. I plan to continue that fight and do whatever I can to support union jobs and the right to join a union.

Working families

24. Do you support the current language that allows educator locals to unilaterally seek a bid and join the Public Employee Insurance Program (PEIP) as the insurance provider for local bargaining units?

Yes No

25. Will you support continuing defined-benefits retirement systems for public employees?

Yes No

26. Will you support providing the necessary state funding to ensure financial sustainability of public pension funds?

Yes No

27. Will you support exploring new systems for providing educators with a secure retirement, including exploring early retirement options that might help recruit and retain educators?

Yes No

28. What legislation could you introduce or support that would reduce the cost of health insurance to school districts? Where do you stand on health care for all?

I 100% think that a single payer healthcare system is the only way that we can reduce healthcare costs across the board. Everyone should have the ability to get the care they need when they need it without fear of it causing financial hardship. Not to mention that it is immoral to make profits from denying people health care.

Privatization

29. Do you oppose state tax credits for private K-12 education tuition and expenses?

Yes No

30. Will you support policy changes that will ensure a stronger accountability system with necessary oversight and reporting to ensure quality management and instructional practices in charter schools?

Yes No

31. Will you support a moratorium on new charter schools until such changes are made?

Yes No. I am unsure

32. Minnesota students, from different places and of different races, deserve well-resourced, welcoming schools. These needs are urgent and can't wait decades for lawyers and courts to force it to happen.

Do you oppose efforts that would delete constitutional mandates for using taxation to fund public education funding and for providing equal access to public schools to all students?

Yes No

Do you also oppose these same efforts that would enshrine standardized testing – with all its racial, cultural and economic biases – into the Minnesota Constitution?

Yes No

Your role as a legislator

33. Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?

34. What have you done to become informed on issues relating to public education? What organizations and individuals do you go to for your information?

Click or tap here to enter text.

35. How do you envision working with Education Minnesota if you are elected/re-elected? If you disagree with us on an issue, how will you communicate that?

Click or tap here to enter text.

36. If elected/re-elected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?
