Lead author to provide Tribal Colleges with 1M a year, which is massive in their budgets, to help increase their graduation rates. Most students coming from Tribal College leave with zero debt, and we are building a robust transfer portal so students can make an easy transition, specifically in areas of Social Work, Education, and healthcare. While, also work to create a State change to SNAP, allowing Higher Education students to be eligible for those benefits. We know many college students struggle with Food insecurity. When I served on the Higher Ed Conference Committee I pushed for increases in the Teachers of Color and Indigenous Teachers Act, knowing that representation matters. I know this being an Indigenous person who has never seen a teacher who looks like me at the front of the classroom, and I have 4 degrees. I really want to explore a fellowship program for our Para's to become teachers.

18. The North Star Promise is expected to result in an increase in enrollment on our campuses. Many of these students are projected to be disproportionately first-generation students and students from historically underserved communities. As a legislator, what would you do to ensure these students had the support they needed to be successful?

Add more Mental Health and Trauma-informed supports for students. We also need to make some adjustments to the North Star Promise, we don't want to loose local supporters and funders.

19. There are efforts to expand the North Star Promise to Minnesota's private colleges and universities. This would dramatically increase the amount of public money going to private institutions. Do you support the expansion of the North Star Promise to include private colleges and universities?

No

High-quality professional educators

20. What will you do to help recruit and retain high-quality educators in our classrooms?

Creating a Diverse Teaching pool in MN but providing job placements, it's one thing to provide scholarships but if our school districts still hire 99% white teachers it doesn't matter how many teachers of color or indigenous teachers we educate. We have unethical hiring practices, which is the next thing I will be exploring.

Standardized testing

21. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

I hate standardized tests! I think we can review a teachers ability to connect and engage with their students using the test scores. It's not always just looking at how a student is doing. We know kids learn better in safe, inclusive environments.

Honesty in Education

22. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

I'll continue to be a voice of protecting Books on the Ed Policy committee, you can watch the committee hearings and see my comments.

23. Education Minnesota believes all students should have the freedom to feel safe and welcome in their public school, no matter what they look like, where they're from, how they pray, transgender or not. Do you agree?

Union Rights

Do you support expanding and strengthening workers' rights to join a union and bargain collectively?

Your role as a legislator

Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?

I'm in the schools on a very regular basis. I brought the Ed Policy Chair out to my district in Jan, so she could see our new High School, and chat with Administrators about funding, the READ ACT, and other concerns. We also talked to students and heard firsthand their concerns regarding the lack of Mental Health support. I'm also a SPUD mom so I stay very engaged through that and Indian Education PTAC.

What have you done to become informed on issues relating to public education? What organizations and individuals do you go to for your information?

I email and text my admin, teachers, students and parents on a regular regarding questions. I also do simple surveys in my legislative updates asking my community about topics, including education.

How do you envision working with Education Minnesota if you are elected/re-elected? If you disagree with us on an issue, how will you communicate that?

I am the Chair of the Absenteeism Legislative Task Force, working to start addressing the real reasons why students miss school. Would love for you all to help by getting involved and bringing the Greater MN voice to the table. Also, I plan to continue to carry the Prep Time bill. I know these are both Bipartisan issues that I'm working across the aisle to come up with healthy solutions.

If elected/re-elected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?

I always go back to my community! My local teachers and students are always by guiding post in the work. I think you have been able to see how I try to bring all the voices to the table to really learn about the big pictures issues, and I love the our community can process through issues and think of solutions!
