Your role as a legislator

Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?

I have not, but I would be interested in doing so. My last experience in a school was when I was in nursing school in 2021.

What have you done to become informed on issues relating to public education? What organizations and individuals do you go to for your information?

I have friends and colleagues who are teachers and school board members, I also have watched several school board meetings. For specific current events information I typically check a variety of news sources.

How do you envision working with Education Minnesota if you are elected/re-elected? If you disagree with us on an issue, how will you communicate that?

I am very upfront and honest about my perspectives. If there is a proposal I disagree with or don't know enough about, I am very willing to discuss with stakeholders, hear new opinions, and make a decision based on the best available information. I am very responsive to communications, and am happy to communicate through whatever medium is appropriate.

If elected/re-elected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?

Again, I am very interested in hearing different perspectives from stakeholders on an issue, learning new information, and then making a decision based on the best available information.
