No

Q12. Efforts to address college affordability in the last two decades have resulted in 120% growth in the State Grant Program. N/A

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

Besides creating a new top tax bracket for the wealthiest individuals, I would: keep corporate taxes the same or increased; promote both marijuana and hemp industries for additional revenue; if mining of rare earth minerals (BW) is to occur, revenue should belong to the state of MN (much like oil in Norway); closing tax loopholes that wealthy take advantage of; add taxes where they should be, but aren't (such as suite tickets/food)

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

That opportunity for wellness and growth of knowledge exists and minimum expectations on curriculum exposure exists. I am open to gradual systemic changes in our education system to better reflect our current situations.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

Books should be available for students to read, but not mandatory reading.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

To help regain trust with these communities, I would: Ensure that schools, childcare and healthcare facilities (within 2 blocks) are "safe zones". Temporary adjustments to requirements should have been made (in this instance and Covid). Additional counselor support in general in schools is necessary all the time going forward. Increasing teacher pay and changing school structure overall would help in this instance as well.

I will LOVE discussing my thoughts on incorporating an alternative 4 day school week plan with you and learning how to best incorporate it.
