William Kelley High School

Two Harbors High School

Hermantown Middle School

Proctor School

Cook County Public Schools

Babbitt North east Range

Ely High School

All of these visits give me unique perspectives on the challenges facing schools in the Northland and the unique programs they provide. One example is the CTE programs at Proctor which provide our students with great opportunities to learn hands on experience in culinary and construction work.

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

As a member of the tax committee and operating in a single vote majority in the state senate, I have shown strong support for a progressive tax structure that helps us fund the critical core services we need in our communities including schools. I'm committed to continuing that work.

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

I believe test scores are one way but not the only way for us to assess where our student achievement results are. I believe in a holistic approach to student assessment, outcomes, and achievement and that teachers in their local classrooms have the best understanding of that.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

We must protect freedom to read and stop efforts to ban books.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

This is something I would like to hear recommendations on from teachers, educators, and other school professionals.
