Q1a. If yes: Which one? What were your observations from your visit? How will this experience inform your work as a legislator?

Moorhead High School, Moorhead Career Academy, Probstfield Elementary. Lake-Park Audubon High School. Facility wise, all of the buildings were in great shape. I served lunch one day at Moorhead High and the students were all so kind to the lunch staff.

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

To ensure equity across our school districts, it's important the the majority of school funding come from the state. The differences in property tax bases from district to district creates a funding world of haves and have nots. Property tax is also a regressive tax and a progressive income tax where the wealthiest among us pay their fair share is the better way to fund education. I was supportive of the social media tax that we tried to put forward this session .

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

I think curriculum evaluation and identifying achievement gaps are appropriate use of standardized test scores at a system level. I think decisions about individual students or educators are better made by in-person evaluation.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

I was proud to have voted for the Freedom to Read Act in 2024. We need to protect and enhance that law particularly in face of the white washing of history from our federal government.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

I would support funding of programming and counseling that helps students and staff deal with the trauma caused by operation metro surge and make sure that what is provided is culturally sensitive to our BIPOC communities,
