Q12. Efforts to address college affordability in the last two decades have resulted in 120% growth in the State Grant Program. Q1a. If yes: Which one? What were your observations from your visit? How will this experience inform your work as a legislator?

Moorhead High School and Horizon West. As a parent I see the passion the Moorhead school district has for their students, but I also see the students worried and spreading rumors of risks to their safety without clarification from the staff.

I feel as a legislator if we expect transparency from our government, we should provide it for our children too.

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

From sporting events to clothing and dining, too often the higher class receive handouts on the taxpayers dime. It's time to remove the incentives that only let the rich get richer as the younger generations suffer. I look to remove all handouts for corporations and business entities to participate and instead have them invest in our schools to sponsor the youth who will inevitably take over.

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

I feel that standardized testing needs to go, period. Basic learning fundamentals should be taught, and then applied in the classroom through creative ways and critical thinking.

We need to support children researching and finding their own conclusions by teaching them How to learn by encouraging their own curiosities.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

Books are meant to inspire and connect to others. Their interests or how they feel. Every person is different in their own right and way. Instead of conforming to a specific criteria, we should provide all options to help connect a student to who THEY are, not what an administration wants them to be.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

When elected, work on day one will start to ensure schools are a safe place once again. Schools use to be a place a child can run to. Instead many are taught to vacate and run from them. As a parent who has helped during national threats of ICE apprehending students after classes are dismissed, we need to ensure ICE can not enter or be within a 4-6 mile radius of our schools. For students and families currently affected, we need to work on ways to reach families who currently hide from those who are meant to protect to ensure their needs met as they are our neighbors and contribute to our communities.
