Yes

Q1a. If yes: Which one? What were your observations from your visit? How will this experience inform your work as a legislator?

Duluth East and Duluth Denfeld. Our schools have amazing staff and students, but our class sizes are too high, and we need more resources.

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

I will fight at every opportunity to raise more revenue from the wealthiest individuals and corporations in our state. I introduced a bill recently to increase taxes on the top 2% of Minnesotans 2.6%, which would raise over a billion dollars each year to go toward the public goods we desperately need. The richest 1% of Minnesotans now owns nearly a third of all the wealth in our state. This level of outrageous wealth inequality is not normal, and it should not be acceptable to any of us. I also have a bill to create a 5th tier in our state taxation system, a bill to increase taxes on corporations in proportion to the growth of the disparity between their highest and lowest paid workers, and I am looking into other options like a wealth tax to reduce wealth inequality in our state and to bring in the revenue we need for our schools, healthcare, housing, etc.

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

Testing is not teaching. There is an over-reliance on standardized test scores—from elementary school to college exams. These tests are known to have racial and economic biases that privilege some students while simultaneously disadvantaging the students who could most benefit from public education. I would advise caution in the reliance on standardized test scores, especially in isolation, to make individual or system-level decisions.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

We should protect our students' freedom and teachers' academic freedom with all of the tools at our disposal, including through passing laws enshrining our students' free speech and expression rights, constitutional amendments as we deem necessary, and the active participation of the office of the attorney general to enforce our rights as well.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

The communities in our state that have been most impacted by the federal government's oppressive, fascist actions over the last year are deeply traumatized, and the federal oppression is ongoing. The best way we can support these communities is through basic financial assistance, including making sure the schools most affected have the resources they need – including for mental health support, and for keeping federal agents off of school grounds – so kids, their families, and school staff can count on the school to be a place of safety. We should also act to hold the perpetrators of these crimes against our people responsible, through our state courts and our own state law enforcement. We cannot have federal thugs lurking around our state, acting outside of the law, masking and refusing to identify themselves, harassing people, assaulting people, kidnapping people – even killing people – and violating our laws with impunity. Our state lawmakers must step up, and we must have accountability.
