Yes

Q1a. If yes: Which one? What were your observations from your visit? How will this experience inform your work as a legislator?

I have not visited a school in my district. I have visited schools in Chaska and Eden Prairie in the last year. They had very good security going into the schools or picking up a student from the schools and very specific rights for driving in and out of the parking lot for dropping off and picking up students. I would hope that is the same within my district and if not I would work to keep security at a very high level in our schools.

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

I believe on creating a tax structure for wealth, not just income. Loopholes have been made for the wealthy to avoid taxes. Lets make loopholes so they are help accountable.

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

Additional resources / funding should be made available to underperforming schools. Additionally underperforming schools need to be specifically evaluated to see if there are other areas that need to be addressed.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

I do not believe in banning books unless and a group of credited educators have deemed them unacceptable. Books should be age-specific to students. Books should be relevant to the society we live in, and we should not hide history. If people are extremely specific about what their children should be taught perhaps, they should be sending them to a private school.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

This is a very difficult question since some Minnesota residents have a racist bias. I recommend that there should be more emphasis on wellness including calming methods such as yoga or meditation in the school day. I understand it would be difficult to add anything else to the schedule, but mental health issues are not addressed particularly well in our society. Additionally, I we need legislation that does not allow ICE on school grounds, near school buses, in school crossings or areas where children gather like playgrounds.
