Q1a. If yes: Which one? What were your observations from your visit? How will this experience inform your work as a legislator?

At Cambridge- Isanti Dist 911: Middle Intermediate Primary High School. I am retired teacher from 911. Schools are top notch. Education funding and issues would be my strongest area for advocacy.

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

First is reduce use of need for local district levy and bond votes that puts a burden on individual property taxpayers. Presently this has led to discrepancies of a roughly \$10,000 median per pupil with some districts below and some even \$5,000- \$10,000. Lower based tax districts could have offsetting homestead like tax credit. Definitely more progressive tax plans are needed.

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

Testing should be primarily focused first on the individual student to know their educational needs. Testing should focus locally on individual schools and districts for identifying strengths and areas for improvement. No one test is the measure of a student or school.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

Elect leaders who truly understand and support did the US Constitution. These are battles that must be fought by groups and citizens outside the school. I do feel clear legal guidelines need to be established for local school boards to follow that are statewide.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

Foremost going forward would be strong laws curtailing immigration law enforcement entering school, being near school grounds and bus stops. Absolute requirements of JUDICIAL warrants.
