Fridley High School

At the beginning of the past school year teachers, students, and Admin seemed positive and optimistic. Hourly workers expressed appreciation for Hourly Unemployment, admin connecting it to recruitment and retention. With the assault of ICE so heavy in my district, the mood quickly changed and we went through a very difficult period. My 25 years as a public school educator and Union Rep as well as my continued connection to many districts, parents, admin always have informed my work as a legislator and Chair of education Finance.

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

Closing loopholes that allow multi-state and multinational corporations to shift profits out of state, not contributing to the welfare of MN.

Offset the regressive process of sales and property taxes by expanding refundable credits like the Child Tax Credit and the Working Family Credit.

Look for existing funds that can be reallocated or non-taxed exemptions that can generate funding.

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

Standardized test scores should be used to evaluate programs, identify achievement gaps, and guide resource allocation rather than used as a measurement to judge individual teacher/school effectiveness. Test results should be immediate and used to pinpoint needed skill building in real time allowing teachers to individualized instruction. When a student opts-out, their score should not be incorporated into the final overall school score.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

As a former public school Library Media Specialist I am adamant to protect our students' freedom to access to books and choice to read through the Access to Library Materials and Rights Protected law, which explicitly prohibits public and charter schools, university libraries, and public libraries from removing or restricting reading material based solely on the viewpoints, ideas, or opinions the content conveys. Right now, the state enforces these protections and supports literacy with statewide anti-censorship laws that prohibits viewpoint-based book bans. It also requires libraries listed above to establish formal policies for handling book challenges and mandates that challenged titles be reported to the Minnesota Department of Education. We've legislated student journalism protections through the "New Voices" law that prevents schools from censoring material prepared, published, or broadcasted by student journalists, providing a shield for diverse student perspectives and free expression.

I will continue to fund and support Library Media Specialists and efforts to build LMS' in schools in order to have highly trained, informed, professional staff to make literature choices that reflect students and community.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

To support Minnesota's schools, educators, and students in recovering from the trauma and financial instability inflicted by Operation Metro Surge, especially within BIPOC and immigrant communities, we need to focus on building trauma-informed safety nets, securing emergency state funding, and defending civil rights. This looks like adequately funding and staffing bilingual social workers and culturally competent mental health professionals for students, families, and staff. Provided funding/training for all educators in trauma-informed pedagogy and psychological first aid to help students re-regulate in times of chronic stress, and pass my bill, SF3699, to reinstate sanctuary policies that strictly prohibits immigration enforcement within or directly outside school facilities, Including the following provisions:

- Ensuring federal law enforcement is included in existing prohibitions against masking for the purpose of obscuring their identities.
- Creating a legal avenue for Minnesotans to seek civil action against federal law enforcement officers who violate their constitutional rights
- Protecting essential spaces from entry when a warrant is not present, including schools, child care facilities, health care settings, higher education, and prohibiting civil arrests for people attending court.
- Prohibiting the denial of education based on immigration status, and establishing the ability to sue when this right is denied based on immigration status
