Q1a. If yes: Which one? What were your observations from your visit? How will this experience inform your work as a legislator?

My visits to Hastings and Cottage Grove schools have been for their programs, performances, and student engagement. I am personally close to our school boards, teachers, students, families, and staff.

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

I need to look into this question further but can we re-direct Capital Gains Tax to help fund education? I'd love to dig into this more with all of your help.

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

Hardly any?? As a daughter, sister, niece, and friend of educators it is tough to answer this question. We need to have more and better control of our state-level decisions in education.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

By never banning books. Ever.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

ICE has no power in the MN I want to help build. We must protect all education institutions as sacred spaces for our students in Minnesota.
