Q1a. If yes: Which one? What were your observations from your visit? How will this experience inform your work as a legislator?

Yes. As a member of the school board for ISD 622 North St. Paul–Maplewood–Oakdale public schools, I have visited all of our schools over the past year. In addition, I am also a substitute teacher in nearby districts. It is important to me to be in our schools to see firsthand the experience of our students, teachers, and paras. I will bring these experiences to the Capitol to champion our students, teachers, and staff.

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

I support maintaining Minnesota's progressive income tax structure and closing tax loopholes that allow large corporations to avoid paying their fair share. I support additional revenue options based on progressive taxation that promote tax fairness and provide stable, long-term funding for public education while protecting working- and middle-class families.

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

Standardized assessments can provide useful information about overall, broad student achievement trends, identify achievement gaps, and help inform decisions about resource allocation and academic support. However, they are not great for tracking student-by-student achievement. No student's future, teacher's effectiveness, or school's success should be determined by a single test score.

Standardized testing should be one tool among many used to evaluate student learning and school performance. As a school board member, I have seen the importance of considering multiple measures, including classroom performance, graduation rates, attendance, student engagement, and educator feedback. We use metrics in our Bridge to Read program to better track students' reading growth.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

Students benefit from access to a broad range of age-appropriate books and educational materials that reflect different experiences, cultures, perspectives, and ideas. Decisions about library collections should be guided by professional educators, librarians, and established review processes rather than political pressure. Minnesota should continue supporting policies that protect intellectual freedom while ensuring materials are age-appropriate and educationally valuable. As a gay man, I know I would have felt more valued and accepted if I had seen people like me in available books.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

Minnesota students learn best when they feel safe, supported, and welcome in their schools. I support providing schools with the resources necessary to address student mental health needs, expand access to counselors and social workers, and strengthen partnerships with families and community organizations. Educators should have the tools and support they need to help students navigate trauma and uncertainty, while schools should continue to be places where every child can focus on learning and growth regardless of their background.

We must pass a state law explicitly banning ICE from conducting operations at schools.

As a school board member, I saw and heard firsthand the terror that students and staff felt. We had ICE across the street, at bus stops, and following staff and students to schools. We had teachers and staff delivering food and organizing food drives. I am proud of our teachers and staff, and I am deeply saddened that they had to do this extra work on top of their already cumbersome duties.
