Q1a. If yes: Which one? What were your observations from your visit? How will this experience inform your work as a legislator?

I was just at Park Spanish Immersion to present a MN Teacher of the Year Award. I frequently tour the schools in our district as well as Intermediate 287. As the House Education Finance Chair, I also visit schools outside the district as well as working as a substitute teacher and a para professional during the interim.

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

I support a tax on social media platforms, and I support looking at a form of a fifth tier. I also support taking a deep dive into our tax expenditure report to see if there are expenditures that have not been effective at reaching the goals of the legislative intent.

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

I believe that standardized test scores (like our MCA's) are used to meet Federal requirements and helps us determine if our school districts teaching to the standards. Standardized tests are not reflective and should not be used to determine a teacher's quality. Standardized test scores also help determine how students across district line are doing compared to each other.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

It is essential to our student's education have access to curriculum that reflects all of our communities. This leads to a well-rounded education. As the House Education Finance Chair in 2023-2024, we passed Ethnic Studies, started the new social studies standards review, and began the process of putting in place statewide health standards. Our students benefit when they have access to curriculum that reflects the world around them.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

Between COVID, George Floyd's murder, and Metro Surge, our students, teacher, and all school staff have been thru A LOT! It is important that we have the wrap around services that our students need. That is one of the reasons I help push through the investment in Student Support Personnel Aid in 2023. We also made a large investment in TOCAIT and pathways to teaching for our para professionals.

During the 2025 session our first hearing, while I held the gavel, this last session of our House Education Finance Committee was testimony on Metro Surge and how it affected our school communities. While were not able to pass any specific funding to respond to Operation Metro Surge, it will be on the top of the list in the upcoming session. I will always support our communities that have been traditionally underrepresented.
