Q1a. If yes: Which one? What were your observations from your visit? How will this experience inform your work as a legislator?

Minnetonka High School, Eden Prairie High School, Gatewood Elementary, Scenic Heights Elementary, Clear Springs Elementary

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

5th Tier for the ultra rich (believe it's \$10M/yr income or higher if memory serves right), making sure any data centers built are full paid for by the corps owning/running them vs taxpayers via subsidies or other tax incentives, tax on social media platforms, tax on stadium suites, tax on excessive credit card interest rate profits, etc.

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

Standardized test scores can serve as a general census of statewide academic improvement and point to where specific school districts or school buildings may need improvement. But it's not a one size fits all approach to solving education gaps. Community, culture, socio-economic, English proficiency of the student and parent/home support adults are just some considerations. I favor schools having the flexibility to address significant gaps compared to statewide averages on their own terms for their own unique student population. This of course also requires funding to allow districts to evaluate and come up with a customizable plan - which goes to the questions of how we can continue funding our schools fairly and with a stable outlook for the future.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

I 100% favor a ban on book bans. Let teachers, library staff and if necessary the school board, to decide what is appropriate but we cannot blanketly ban entire books or topics from our students' access.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

Passing the suite of anti-ICE bills Demuth and the Republicans blocked this passed year as a start to ensure we have state law codified ensuring those federal terrorists can never again traumatize our students or their families, that schools are state-mandated safe/sacred spaces and that we can go after the federal agencies and/or officers themselves for crimes committed. I was glad we passed the rental assistance but we need to do more as well as help affected families find work and get connected with social serves they need. I spent 3 months before session on the front lines fighting the occupation and will continue to do everything I can to support the healing our community deserves.
