Q1a. If yes: Which one? What were your observations from your visit? How will this experience inform your work as a legislator?

Shakopee High School. I was working to assist Shakopee public schools in obtaining approvals for workplace learning programs from the MDE, and the state is making that process much more difficult than it needs to be. Within this program and others, I want to find ways to lower the barriers for our students and teachers to receive the opportunities they need to thrive.

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

I completely agree with the above statement and would be supportive of any new ways that we can progressively and equitably raise state revenue and direct those funds to our local communities, such as our schools.

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

Standardized testing has been terrible for public education in the United States and in Minnesota. Standardized testing has perpetuated systemic racism, been used as a club to attack public school funding, and is only a small piece of information about a student's growth that we overly rely on. If anything, standardized testing shows us where we need to send additional funding, confirms that we need to fight for smaller class sizes, and ensures that teachers and students have the resources they need to succeed, like technology and mental healthcare.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

Minnesota students deserve an inclusive curriculum and access to resources, such as books, that will allow them to grow as curious, thoughtful, and empathetic leaders. I am proud that our caucus passed a bill to ban book bans during the DFL trifecta, and I will continue to oppose any legislation or local action to remove books from local libraries. Furthermore, I am committed to ensuring that teachers, librarians, and students have the resources they need to courageously stand up for students' access to age-appropriate, inclusive, and historically accurate books.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

Being on the frontlines along with community members when Operation Metro Surge was at its worst, I saw firsthand the devastation it was having on our BIPOC communities and our kids. I am committed to passing legislation that would direct additional mental health resources to our schools so our kids have access to processing their trauma, and legislation that would ensure federal agents do not have access to our schools to enforce immigration orders.
