Q1a. If yes: Which one? What were your observations from your visit? How will this experience inform your work as a legislator?

I visited 5 public schools this past year. Two elementary, one middle school and two high schools. In addition I visited Fit Academy. Each visit had a focus. For example, Falcon Ridge was to meet with the principal to discuss the school's high level concerns and needs, including Metro Surge response, the reading curriculum and specific mental health situations. These discussions and experiences provide context to address and share with committee members as we consider policy.

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

I support revenue raisers to address the growing inequality we see in our country and am open to multiple options supporting more tax revenue to advance investment in our schools and the needs of students. Utilizing the School Trust Lands funding plan is an important Constitutional Amendment I will support.

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

Testing is an important component in education. It is however only one. An individual student's evaluation should also bring real world conditions of an individual into consideration. Family situations, the individual experiences, ACE scores, personal achievements and the input of instructors who may share pertinent examples of effort and success.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

We banned book bans in Minnesota for a reason. I voted for this bill. Students need access to the full range of age - appropriate books.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

The impacts of Metro Surge are wide ranging and diverse. They will take time to address and help students and families recover. We were not able to garner the necessary votes this session to address the changes needed. In the short run teachers, administrators, parents and counselors will continue to be on the front line of this crisis. I am hopeful the balance of power shifts after the next election and we can work to mitigate some of the problems that will be on-going.
