Q12. Efforts to address college affordability in the last two decades have resulted in 120% growth in the State Grant Program. Q1a. If yes: Which one? What were your observations from your visit? How will this experience inform your work as a legislator?

I was Principal for a Day at Armatage Elementary School, the Minneapolis Public School my kids attend! It was a fantastic visit. One of the takeaways that stuck with me most was the challenges the SPED teachers have managing their caseloads with the high need. It reminded me of the critical importance of funding SPED and working to close the SPED cross-subsidy.

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

I strongly support raising progressive revenue by instituting fair taxation and asking the wealthiest households and corporations to pay their fair share. I support a 5th tier income tax, closing corporate tax loopholes and ending unnecessary tax expenditures, and exploring creative revenue options like a social media tax.

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

I believe the best use of test scores is to ensure that we are continuing to close the opportunity gap for students of color. I support using data to ensure we are targeting interventions where they are needed most to improve outcomes for disadvantaged students.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

I support the 2024 law we passed to protect access to library materials and prohibit book banning. I believe we should continue to stand up against censorship and ensure students have access to materials that reflect their diverse interests and backgrounds.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

I've heard firsthand from teachers and parents the impact that Metro Surge had on our schools, teachers, and student learning. We worked hard to enact a law to ban ICE agents from entering schools without a judicial warrant. Unfortunately, the effort failed on a party line vote. We also put together a comprehensive package to protect Minnesotans from future immigration enforcement to the extent allowed under Minnesota law, including a bill I authored to allow Minnesotans to sue federal officers in civil court for violating their constitutional rights.
