**Q26. Do you support clarifying and strengthening workers' rights and protections in the paid family medical leave program?**

Yes

**Q1a. If yes: Which one? What were your observations from your visit? How will this experience inform your work as a legislator?**

My now-college-aged kids attended public schools in our neighborhood all the way through, just like I did, and I've been in and out public schools throughout the district for years. I love those visits; they always give me such energy and insight. But sadly, I'm realizing that my path hasn't taken me to any in this past year...

**Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?**

I've long supported services that truly meet the needs of our state – and voted for progressive, equitable funding (in all kinds of ways) to pay for them.

**Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?**

Standardized tests should be used, as one tool among many, to help assess and improve student learning. I'm skeptical of the broader utility of such tests, especially to evaluate individual educators or schools.

**Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?**

I'm proud of the law that we passed during the 2023-2024 trifecta that prohibits book bans in schools and public libraries. That was a major step forward. At the same time, we need to continue to emphasize the importance of freedom of inquiry – and to call out this kind of censorship where it shows up.

**Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?**

My House DFL colleagues and I advanced a series of proposals in response to Operation Metro Surge to protect our community and provide for healing and recovery. I'll note that my own focus during the Surge was on the Shepard-Davern part of my district, which is the home for many immigrants to Minnesota, as well as on the broader Ethiopian community; our team distributed 1000s of Know Your Rights cards in Amharic and Tigrinya, among other languages.
