Q1a. If yes: Which one? What were your observations from your visit? How will this experience inform your work as a legislator?

I have visited several, most recently Murray Middle School and Barack and Michelle Obama Montessori and Middle School. Both schools provided insightful conversation with both students and faculty, and I was happy to be part of both. I have also visited Roseville Area High School, and talked with many students during their walkout over ICE's occupation.

As a parent of school age kids, and active community member in my district, I am always learning and growing as a legislator through their school experience and school communities.

Q10. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. What progressive, equitable ways to raise state revenue do you support?

I support additional tax levels for ultra wealthy Minnesotans. I support social media taxes, as well as increased corporate taxes on companies it's doing business development in Minnesota. Some of the world's most profitable companies are looking to build here, and they should support our communities in return.

Q15. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

Very few decisions, if any. Standardized tests may provide moment in time looks at the performance of students but they rarely capture the abilities of our students personally or collectively.

Q16. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

We should protect our books and the freedom of our students in every way possible.

Specifically, we should update our 'opt-out' language in statute to be less permissive of challenges and pulling students. All students should be aware of the world and have the ability to see themselves reflected in our books.

Q27. How would you support schools, educators and students in recovering from the trauma and financial impacts that Operation Metro Surge inflicted upon our state, especially BIPOC communities?

We should listen to the needs of affected communities—especially our kids and educators. Ensuring a safe workplace and environment at school is where we start, but we'll take the work of supporting ALL our neighbors wherever we need to.
